

DOCUMENT CONTROL

Data Processing Addendum 2024

Personal-data terms attached to the Northwind cloud-services engagement.

Document ID	CTR-013
Owner	Privacy Counsel
Version	1.0
Effective Date	2024-01-15
Controller	Meridian Holdings Ltd.
Processor	Northwind Cloud Systems LLC

Synthetic corporate document for demo, evaluation, and retrieval workflows only. All parties, people, systems, repositories, and events are fictional.

1. Roles and Processing

- Meridian acts as Controller for Customer Personal Data processed through the managed retrieval and analytics services.
- Northwind acts as Processor except where applicable law requires Northwind to act independently.
- Processor personnel with access to Customer Personal Data must be subject to confidentiality obligations and background screening appropriate to role sensitivity.

2. Security Measures

Control Area	Requirement
Access Management	Least-privilege access, MFA for privileged users, quarterly recertification of production administrators.
Encryption	Encryption in transit and at rest for production data stores and backups.
Monitoring	Security events and privileged actions retained for at least 12 months.
Deletion / Return	Return or delete Customer Personal Data within 30 days after termination unless retention is required by law.

3. International Transfers and Data Location

Clause 5.2 — Data Location. Processor may process Customer Personal Data in any jurisdiction where Processor, its Affiliates, or its approved subprocessors maintain facilities, support personnel, or technical infrastructure reasonably required to deliver the Services.

Clause 5.3 — Applicable-Law Compliance. Processor shall implement reasonable measures intended to support lawful international transfers and shall cooperate with Customer where supplemental documentation is materially necessary.

Clause 5.4 — Transfer Mechanism. As of the Effective Date, the parties acknowledge that specific transfer appendices, including any standard contractual clauses, may be added later if requested by Customer and agreed in writing.

Gap intentionally preserved: the DPA does not require EU-only residency and does not attach an SCC appendix. This supports the compliance finding and checklist action.

4. Subprocessors and Assistance

Clause 6.1 — Subprocessors. Processor will maintain a current subprocessor list and will make updates available through its supplier portal. Processor will consider commercially reasonable objections received within fifteen (15) days of publication of a material change.

Clause 7.2 — Audit Assistance. Processor will provide reasonable information and assistance needed to demonstrate compliance, including current certifications, summary reports, and targeted responses for material diligence matters.

Appendix Status

Appendix	Status	Comment
Appendix A — Processing Details	Attached	Service scope, categories of data, and subject groups included.
Appendix B — Security Measures	Attached	High-level control summary only.
Appendix C — Standard Contractual Clauses	Reserved / not attached	No executed SCC package included in the current file.
