

Nonconformance Report - Vendor Access Review

Formal record of an evidence and control-gap issue detected during audit activities.

Notice: Synthetic business document for demo use only. All names, parties, systems, and events are fictional.

Document ID	AUD-002	Owner	Compliance
Version	1.0	Opened Date	2025-10-10
Related Records	AUD-001, EVD-001, MIN-001	Classification	Internal Use

1. Issue Summary

Field	Value
Nonconformance ID	NCR-2025-017
Source	Q3 internal audit checklist (AUD-001)
Description	Two privileged vendor accounts in the BluePeak production support tenant were not included in the Q3 access recertification evidence pack.
Severity	Moderate
Detected On	2025-10-10
Control Reference	POL-002 quarterly privileged access review requirement; CTR-004 access-management obligations.

2. Immediate Containment

- Temporarily restricted elevated privileges for the two identified vendor accounts pending owner confirmation.
- Opened a remediation ticket with Vendor Management and Security Operations.
- Requested evidence of account purpose, approval, and last activity from BluePeak within 3 business days.

3. Root Cause and Corrective Actions

Action	Owner	Due Date	Status
Reconstruct Q3 access review evidence and obtain system-owner approval	IT Operations	2025-10-18	Open
Update evidence checklist to require explicit vendor-admin population	Compliance	2025-10-21	Open
Reject vendor contract language that weakens access-review support obligations	Legal	2025-10-24	Open
Confirm quarterly recurring control owner and workflow in GRC system	Security Governance	2025-10-24	Open

4. Closure Criteria

The NCR may be closed when corrected evidence is archived, contract language is aligned to policy, and the Governance Committee records acceptance of the remediation plan.
