The Northwind vendor package is not yet fully contract-ready; however, targeted remediation is underway and management has isolated the only temporary waiver to service availability for the pilot phase.

Open Matters Requiring Oversight

Liability	MSA draft retains uncapped liability.	Hold execution until baseline cap is accepted or alternate structure approved.

Availability	SLA currently at 99.5%.	Pilot-phase risk acceptance approved through 2024-06-30 only.
Evidence / Controls	Access approval artifact was late to archive.	Issue closed with remediation note and updated evidence checklist.

Decision Request

Management requests acknowledgement that (1) launch remains conditional on closure of liability and transfer issues, and (2) the temporary availability waiver is acceptable for the pilot only, subject to monthly reporting.
