

Internal Audit Checklist - Vendor Controls

Q3 2025 review of contractual controls, access evidence, and third-party oversight.

Notice: Synthetic business document for demo use only. All names, parties, systems, and events are fictional.

Document ID	AUD-001	Owner	Internal Audit
Version	1.0	Audit Period	Q3 2025
Entity Reviewed	BluePeak Cloud Services LLC	Classification	Internal Use

Audit Objective

Assess whether the critical vendor BluePeak Cloud Services operates controls consistent with HarborView policy, contractual commitments, and retained evidence expectations.

Checklist Results

Control Test	Expected Evidence	Result	Reviewer Note
Vendor completed pre-onboarding security review	Approved questionnaire and review memo	Pass	Security review package approved on 2025-08-05.
Current signed DPA on file	Executed DPA	Pass	CTR-004 fully executed.
Quarterly privileged access review completed	Q3 access review evidence with owner sign-off	Fail	Evidence for two vendor admin accounts missing.
Incident notification obligation aligns to policy	MSA clause and escalation matrix	Fail	Vendor draft contains 10-business-day notice language.
Subprocessor list current	Current list and change log	Partial	List provided, but no documented change-notice workflow.
Data deletion timeline documented	Contract clause or operating procedure	Partial	Vendor draft uses undefined "commercially reasonable efforts".

Conclusion

Overall assessment: control design is partially adequate, but evidence quality and contract alignment gaps require remediation before full close-out.
