

Data Processing Addendum

Version 1.0 - personal-data obligations that align with HarborView security and retention requirements.

Notice: Synthetic business document for demo use only. All names, parties, systems, and events are fictional.

Document ID	CTR-004	Owner	Privacy Counsel
Version	1.0	Effective Date	2025-08-12
Counterparty	BluePeak Cloud Services LLC	Classification	Confidential

1. Roles and Processing

- HarborView acts as Controller for identified Customer Personal Data; BluePeak acts as Processor except where otherwise required by law.
- Processor shall process personal data only on documented instructions and only for the contracted services.
- Processor personnel with access to personal data must be bound by confidentiality obligations.

2. Security Measures

Control Area	Requirement
Access management	Least-privilege access, MFA for privileged accounts, timely deprovisioning, and quarterly privileged-access recertification.
Encryption	Encryption in transit and at rest for customer personal data maintained in production services and backups.
Monitoring	Logging for privileged actions and security events retained for at least 12 months.
Incident response	Notice to HarborView within 48 hours after confirmation of a personal-data incident.
Subprocessors	Written subprocessor list and prior notice for material changes.
Deletion / return	Return or delete customer personal data within 30 days of termination unless retention is legally required.

3. Audit and Assistance

Processor will provide reasonable information needed to demonstrate compliance, including current certifications, summaries of independent assessments, and supplementary responses to customer diligence requests where materially necessary.
